## Trident A-Range 500

The legendary **A-Range®** equalizer holds a unique place in audio history, with a stunningly musical sound that resulted from its all-discrete transistor circuitry and the use of inductors in the upper and lower mid bands. The A-Range® is a faithful re-creation of the original four band Trident A-Range® equalizer in a 500 module format, that will add the unique Trident signature to any programme material.

Price: CHF 849.-

## Trident Audio 80B EQ 500

The Series **80B 500 Series EQ** incorporates a classic four band equaliser which is identical to that employed in the Trident Series 80 console. It consists of frequency switchable high and low pass shelving sections, coupled with two swept low and high mid range bands and a switchable 50Hz, 12dB per octave filter. Both swept midranges have been carefully chosen for maximum effect on music programme and a good degree of overlap is provided.

Price: CHF 399

## Trident Audio Deca-Dent

The Deca-Dent is a new 10 space 500 Series rack mount chassis from Trident Audio Developments. This 500 series chassis is unique because it features the most versatile set of connections on the market, along with features not found on other 500 Series chassis.

Price: CHF 799.-

## Trident Audio Series 78 Console

The new Series 78 all analog consoles are all Trident through and through. The Trident Series 78 is a cost effective mixing console tailored for engineers, studio owners, educational facilities, houses of worship, and live sound applications.

The 78's are Split/Inline consoles with individual channels in 4-way panels. Using an 8 subgroup configuration and incorporating 6 Aux sends, its routing options are vast and simple to use. Connections are fast and easy with DB-25's throughout the board and XLR's for speaker and main outputs.

**Price 78-32:** CHF 24999.-

**Price 78-32VUMB:** CHF 2500.-

**Price Lundahl:** CHF 250.-

**PSU:** CHF 1750.-

## Trident Audio Series 88 Console

The Trident 88 is a classically styled, in-line, eight-buss analog console and an advancement in lineage of the revered Series 80 mixing desks. Designed with manufacturability in mind, the 88 is artfully constructed for ease of use and workhorse reliability. Available in stock configurations of 8, 16, 24, 32, 40 channels and beyond. The model 88 is sized to fit the modern, high end facility – whether private, institutional, or professional.

Along with the pleasingly familiar routing and feel of a classic Trident desk, are modern refinements that serve to improve functionality, workflow and performance specifications. For example, integration with outboard processors and mic pre's, such as 500 format, is provided simply and elegantly by means of an exclusive, switchable input, which bypasses the channel preamp circuitry and allows for insertion of external signal sources directly to the channel equalizer.

Being a Trident, the equalization is of course, wonderful and on the 88 – it is also plentiful, on the channel, monitor, effects returns and group sections.

**Price 88-8:** CHF 16319.-

**Price 88-8VUMB:** CHF 1000.-

**Price 88-16:** CHF 25499.-
